Mr. Shawn Hallisey, Administrator
Burlington Health & Rehab
300 Pearl Street
Burlington, VT 05401-8531

Dear Mr. Hallisey:

Enclosed is a copy of your acceptable plans of correction for the complaint investigation conducted on **December 20, 2021**. Please post this document in a prominent place in your facility.

We may follow-up to verify that substantial compliance has been achieved and maintained. If we find that your facility has failed to achieve or maintain substantial compliance, remedies may be imposed.

Sincerely,

Pamela M. Cota, RN
Licensing Chief

A deficiency statement ending with an asterisk (*) denotes a deficiency which the institution may be excused from correcting providing it is determined that safeguards provide sufficient protection to the patients. (See instructions.) Except for nursing homes, the findings stated above are disclosable 90 days following the date of survey whether or not a plan of correction is provided. For nursing homes, the above findings and plans of correction are disclosable 14 days following the date these documents are made available to the facility. If deficiencies are cited, an approved plan of correction is requisite to continued participation.

Under the resident in her/his wheelchair was a large white pad with writing on the underside, that covered the seat of the wheelchair and draped down in front of the wheelchair to approximately 2 inches above the front wheels of the wheelchair. Along the right side of this pad, from the seat of the wheelchair down to the bottom of the pad where it hung to approximately 2 inches above the front wheels of the wheelchair was a strip approximately 2 inches wide, where more of the light brown to yellow substance and particles were noted. The residents hands were noted to have this light brown and yellow substance on both her/his hands as well as on the right leg of her/his shorts at the thigh area.</p> <p>Introductions were made and the resident stated, "I asked over an hour ago for someone to come in and help me, as you can see I am covered in feces. This is my life, everyday and they don't seem to care. I sit like this for hours until someone decides I am deserving of their help." S/he went on to say, "I use to be able to care for myself, but my vision is so bad all I can see are shadows." When asked about the substance noted on the towel, her/his shorts, her/his hands and the pad s/he were sitting on, s/he stated "this is all feces, they do not use the right supplies for my colostomy".</p> <p>During this interaction with this resident a person who identified themselves as "the residents therapist", came into the residents room and greeted the resident. This person stated, "this is unacceptable, I've suggested s/he call and file a complaint. S/he is on a hunger strike and I'm very concerned about her/his nutrition." The surveyor asked the resident why s/he was on a</p>	F 557

I came here because I wanted to but I didn't know the care was going to be so bad. It's not right for old people like me to be left sitting in feces for hours and then to be told we are difficult, argumentative, and hard to care for because we speak out. I am speaking out for all the residents here, because we pay good money and should get good care." This surveyor stated that they would bring to the staffs attention the residents current situation. The resident asked that this surveyor come back while the staff provide the care "I want you to see for yourself the chemical burns I have on my skin from being left in my own feces for hours at a time".</p> <p>Interview on 12/20/21 at approximately 12:45 PM with the LPN who was assigned to this resident, s/he explained that they were aware of the residents needs but it takes 2 staff members to clean this resident up. S/he pointed to the LNA that was assigned to this resident and stated, s/he has been busy providing care to other residents while I've been busy passing medications to the residents and I have several Covid positive patients on my side so I have to put gloves on, mask, face shield, and a gown before I go into the room, then I provide the care and have to ungarb to go to the next residents room and then do the same thing with putting on new gloves, masks, face shield and gown." The surveyor asked her/him to come and see the resident to which the LPN put her/his arms out to the side and said, "What? Do you want me to go</p>	F 557

F 557	<p>Continued From page 3 clean [pronoun omitted] up now?"</p> <p>The nurse and surveyor arrived in the residents room at approximately 12:55 PM, the nurse confirmed that the resident was covered in his/her own feces and that the colostomy bag must have "let loose", s/he stated, "yup, this is a typical day for [pronoun omitted]". The nurse explained that the process of cleaning the resident up after this type of situation is quite time consuming so s/he is usually assisted once everyone else has received their care for the morning. The nurse stated s/he would gather the supplies, get the assigned LNA and they would come back and get her/him cleaned up.</p> <p>Interview with the DON on 12/20/21 at approximately 1:10 PM who agreed to go to the unit with the surveyor and see the resident. Upon approaching the residents room with the DON, the resident was out in her/his wheelchair in the hallway just outside of her/his room. The assigned LPN and LNA met us with the resident, who had not been cleaned up at this point. The DON greeted the resident who stated to the DON, "This is new, all this attention all of a sudden, too bad it took a visit from the state to get the care I need". The DON acknowledged the residents condition and that s/he had feces on her/his clothes, hands, down the front of the pad s/he was sitting on in the wheelchair and the towel wrapped around the residents waist that was also covered in feces. The DON stated s/he was not aware of this being a frequent occurrence.</p> <p>The LPN requested the resident to come into her/his room so s/he could change the resident's catheter and ostomy and get h/him cleaned up and in some clean clothes. The resident asked</p>	F 557

The LPN brought out into the hallway, 5 different ostomy bags and supplies and asked the resident which one s/he wanted to use. The resident explained to the LPN which supplies work the best but s/he was not sure if there were any left. The resident explained that the supplies s/he had at home are the ones that s/he had used for a long time and they work very well. The resident stated that a while ago a staff member went to the residents home and brought back one box of the supplies the resident used prior to her/his admission to this facility. The resident asked why the facility couldn't just order the supplies that worked and stated, "I told them if my insurance wouldn't cover them then I would pay for them and they still use whatever they want." The resident stated that the facility uses whatever they happen to have available instead of the proven supplies that really work.</p> <p>At 1:45 PM the resident was in her/his bed and the LPN pulled the front of the residents incontinence brief forward which revealed a large amount of dried feces on the residents lower abdomen. The LNA brought to the residents bedside a basin of warm soapy water. The LPN attempted to wash the feces off with a warm wet wash cloth with soap and the resident cried out and stated, "Oh my god that hurts so bad, please, what are you doing?" The LPN explained, "I just tried washing the feces off but it is dried in place. I will need to soak your tummy for a bit to clean it all off." The LPN put the washcloth in the basin and then pulled it out and squeezed the water onto the residents abdomen. S/he then patted and wiped the residents abdomen until the abdomen was clean exposing red, raw skin. The</p>	F 557

F 656	Continued From page 7 §483.21(b) Comprehensive Care Plans §483.21(b)(1) The facility must develop and implement a comprehensive person-centered care plan for each resident, consistent with the resident rights set forth at §483.10(c)(2) and §483.10(c)(3), that includes measurable objectives and timeframes to meet a resident's medical, nursing, and mental and psychosocial needs that are identified in the comprehensive assessment. The comprehensive care plan must describe the following - (i) The services that are to be furnished to attain or maintain the resident's highest practicable physical, mental, and psychosocial well-being as required under §483.24, §483.25 or §483.40; and (ii) Any services that would otherwise be required under §483.24, §483.25 or §483.40 but are not provided due to the resident's exercise of rights under §483.10, including the right to refuse treatment under §483.10(c)(6). (iii) Any specialized services or specialized rehabilitative services the nursing facility will provide as a result of PASARR recommendations. If a facility disagrees with the findings of the PASARR, it must indicate its rationale in the resident's medical record. (iv) In consultation with the resident and the resident's representative(s)- (A) The resident's goals for admission and desired outcomes. (B) The resident's preference and potential for future discharge. Facilities must document whether the resident's desire to return to the community was assessed and any referrals to local contact agencies and/or other appropriate entities, for this purpose. F 656	<p>Continued From page 11</p> <p>PM revealed s/he was sitting in a wheelchair, leaning to the far left side, with the left side of her/his head resting on her/his left shoulder. The resident was wearing a pair of black shorts, a white shirt, and white mid shin high socks. S/he had a white towel wrapped around her/his waist, above the umbilicus and her/his mid and lower abdomen were exposed. The bottom of a colostomy bag was noted below the towel that was wrapped around the resident. The white towel was noted to have some light brown to yellow substance and particles covering much of the exposed surface. Under the resident in her/his wheelchair was a large white pad with writing on the underside, that covered the seat of the wheelchair and draped down in front of the wheelchair to approximately 2 inches above the front wheels of the wheelchair. Along the right side of this pad, from the seat of the wheelchair down to the bottom of the pad where it hung to approximately 2 inches above the front wheels of the wheelchair was a strip approximately 2 inches wide, where more of the light brown to yellow substance and particles were noted. The residents hands were noted to have this light brown and yellow substance on both her/his hands as well as on the right leg of her/his shorts. Introductions were made and the resident stated, "I asked over an hour ago for someone to come in and help me, as you can see I am covered in feces. This is my life, everyday and they don't seem to care. I sit like this for hours until someone decides I am deserving of their help." She/he went on to say, "I use to be able to care for myself, but my vision is so bad all I can see are shadows." When asked about the substance noted on the towel, her/his shorts, her/his hands and the pad they were sitting on, she/he stated "this is all feces, they do not use the right supplies</p>	F 656	TAG F 656 POC Accepted on 1/19/22 by R. F 656	<p>Continued From page 12 for my colostomy".</p> <p>During this interaction with this resident a person who identified themselves as "the residents therapist", came into the room and greeted the resident. This person stated, "this is unacceptable, I've suggested he call and file a complaint. S/he is on a hunger strike and I'm very concerned about his nutrition." The surveyor asked the resident why s/he was on a hunger strike and the resident stated, "Because the staff here don't listen to me, they don't really seem to care about me and I worry about those that can't speak for themselves, I feel like doing this hunger strike, well, it might bring awareness to how we are treated. I came here because I wanted to but I didn't know the care was going to be so bad. It's not right for old people like me to be left sitting in feces for hours and then to be told we are difficult, argumentative, and hard to care for because we speak out. I am speaking out for all the residents here, because we pay good money and should get good care." This surveyor explained that they would bring to the staffs attention the residents current situation. The resident asked that this surveyor come back while the staff provide the care "I want you to see for yourself the chemical burns I have on my skin from being left in my own feces for hours at a time".</p> <p>Interview on 12/20/21 at approximately 12:45 PM with the LPN who was assigned to this resident, s/he explained that they were aware of the residents needs but it takes 2 staff members to clean this resident up. S/he pointed to the LNA that was assigned to this resident and stated, she/he has been busy providing care to other residents while I've been busy passing</p>	F 656

F 656	<p>Continued From page 13</p> <p>medications to the residents and I have several Covid positive patients on my side so I have to put gloves on, mask, face shield, and a gown before I go into the room, then I provide the care and have to ungarb to go to the next residents room and then do the same thing with putting on new gloves, masks, face shield and gown." The surveyor asked her/him to come and see the resident to which the LPN put her/his arms out to the side and said, "What? Do you want me to go clean him/her up now?" The nurse and surveyor arrived in the residents room at approximately 12:55 PM, the nurse confirmed that the resident was covered in her/his own feces and referred to the colostomy stating that it must have "let loose" and, "yup, this is a typical day". The nurse explained that the process of cleaning the resident up after this type of situation is quite time consuming so he is usually done once everyone has received their care for the morning. The nurse stated she would gather the supplies and she/he and the assigned LNA would come back and get her/him cleaned up.</p> <p>Interview with the DON on 12/20/21 at approximately 1:10 PM who agreed to go to the unit and see the resident. Upon approaching the residents room with the DON, the resident was out in her/his wheelchair in the hallway just outside of her/his room. The assigned LPN and LNA met us with the resident, who had not been cleaned up at this point. The DON greeted the resident who stated to the DON, "This is new, all this attention all of a sudden, too bad it took a visit from the state to get the care I need". The DON acknowledged the residents condition and that she/he had feces on her/his clothes, hands, down the front of the pad she/he was sitting on in the wheelchair and the towel wrapped around the</p>	F 656

F 656	<p>Continued From page 14</p> <p>resident that was also covered in feces. The DON stated she/he was not aware of this being a frequent occurrence.</p> <p>The LPN requested the resident to come into her/his room so she/he could change the residents catheter and ostomy. The resident asked the LPN to please use the ostomy supplies that were in the box at the end of her/his bed. The LPN brought out into the hallway, 5 different ostomy bags and supplies and asked the resident which one she/he wanted to use. The resident explained to the LPN which supplies work the best but she/he was not sure if there were any left. The resident explained that the supplies she/he had at home are the ones that she/he has used for a long time and they work very well. The resident stated that a while ago a staff member went to the residents home and brought back one box of the supplies the resident used prior to her/his admission to this facility. The resident asked why the facility couldn't just order the supplies that worked and stated, "I told them if my insurance wouldn't cover them then I would pay for them and they still use whatever they want." The resident stated that the facility uses whatever they happen to have available instead of the proven supplies that really work.</p> <p>At 1:45 PM the resident was in her/his bed and the LPN pulled the front of the residents incontinence brief forward which revealed a large amount of dried feces on the residents lower abdomen. The LNA brought to the residents bedside a basin of warm soapy water. The LPN attempted to wash the feces off with a warm wet wash cloth with soap and the resident cried out and stated, "Oh my god that hurts so bad, please, what are you doing?" The LPN explained, "I just</p>	F 656

F 656	<p>Continued From page 15</p> <p>tried washing the feces off but it is dried in place. I will need to soak your tummy for a bit to clean it all off." The LPN put the washcloth in the basin and then pulled it out and squeezed the water onto the residents abdomen. S/he then patted and wiped the residents abdomen until the abdomen was clean exposing red, raw skin. The LPN then lifted the bottom of the residents shirt up above the colostomy bag and then lifted the bottom of the colostomy bag where she/he noted red, raw skin where the bottom of the colostomy bag was. White tape that was discolored with a brownish yellow substance, was noted around where the opening of the ostomy bag is. The LPN stated s/he was going to remove the entire ostomy device and replace with all new as well as changing the resident catheter and clothes. At 2:15 PM the LPN and LNA were still working to get the resident cleaned up.</p> <p>An interview on 12/20/21 at proximately 2:30 PM with the Regional Director of Clinical Services regarding the observation and interviews that took place earlier in the day specific to observations made of this resident at 12:15 PM and an hour and a half later, at 1:45 PM staff had started to provide care to the resident. S/he did explain that this resident does refuse care at times and most recently was found in a similar way by the Administrator. S/he stated that the Administrator offered to get staff to come clean her/him up and she/he stated they wanted to eat their breakfast first.</p> <p>Review of Resident #1's medical record revealed an active order that read, "Complete Weekly Skin Review every day shift every Mon".
