Ms. Lois Langlois, Manager
Rivers Edge Community Care Home
5 Hunt Street
Bennington, VT 05201

Dear Ms. Langlois:

Enclosed is a copy of your acceptable plans of correction for the survey conducted on **April 3, 2019**. Please post this document in a prominent place in your facility.

We may follow-up to verify that substantial compliance has been achieved and maintained. If we find that your facility has failed to achieve or maintain substantial compliance, remedies may be imposed.

Sincerely,

Pamela M. Cota, RN
Licensing Chief

Division of Licensing and Protection

R100 Initial Comments:

An unannounced on-site re-licensure survey was conducted by the Division of Licensing and Protection on 4/3/2019. The following regulatory deficiencies were identified.

R134 V. RESIDENT CARE AND HOME SERVICES
SS=D

5.7 Assessment

5.7.a An assessment shall be completed for each resident within 14 days of admission, consistent with the physician's diagnosis and orders, using an assessment instrument provided by the licensing agency. The resident's abilities regarding medication management shall be assessed within 24 hours and nursing delegation implemented, if necessary.

This REQUIREMENT is not met as evidenced by:

Based on staff interview and record review, the facility failed to assess one resident in the applicable sample, Resident #1, regarding self-administration of medication. Findings include:

During record review for Resident #1 the Medication Administration Record indicates that s/he self-administers insulin. Interview with the Registered Nurse, on 4/3/19 at 10:10 AM, that the resident has administered his/her own insulin for a very long time and confirmed that s/he has never done an assessment for Resident #1 to determine his/her capabilities to self-administer.

5.10 Medication Management
5.10.h (3)
Residents who are capable of self-administration may choose to store their own medications provided that the home is able to provide the resident with a secure storage space to prevent unauthorized access to the resident's medications. Whether or not the home is able to provide such a secured space must be explained to the resident on or before admission.
This REQUIREMENT is not met as evidenced by:
Based on observation, staff interview and record review, the facility failed to ensure secured storage space was available for one resident in the applicable sample. Resident #1, that self-administers medication. Findings include:
Resident #1 self-administers insulin and tests his/her blood sugars and when inquiry was made regarding storage of the insulin and testing supplies, the Registered Nurse (RN) directed that the insulin and supplies were kept in a cabinet near where the resident sits when s/he does their insulin injections. The cabinet sits on the floor and is not locked in a hall that is accessed by other residents and staff. The RN confirmed at 10:10 AM that the facility does not have individual secured areas for residents that self-administer and that Resident #1's insulin is not secured per regulation.

Continued From page 2

5.11.d The licensee shall not have on staff a person who has had a charge of abuse, neglect or exploitation substantiated against him or her, as defined in 33 V.S.A. Chapters 49 and 69, or one who has been convicted of an offense for actions related to bodily injury, theft or misuse of funds or property, or other crimes inimical to the public welfare, in any jurisdiction whether within or outside of the State of Vermont. This provision shall apply to the manager of the home as well, regardless of whether the manager is the licensee or not. The licensee shall take all reasonable steps to comply with this requirement, including, but not limited to, obtaining and checking personal and work references and contacting the Division of Licensing and Protection in accordance with 33 V.S.A. §6911 to see if prospective employees are on the abuse registry or have a record of convictions.

This REQUIREMENT is not met as evidenced by:
Based on staff interview and record review, the facility failed to ensure that 1 (one) of 5 (five) direct care staff in the sample had the required background checks completed. Findings include:

There was no evidence that the facility had obtained the required Adult and Child Abuse Registry Checks for one staff member. On 4/3/2019 at 11:15, during an interview, the person who is responsible to obtain the required background checks confirmed that the required background checks had not been completed.
